MANUFACTURER'S CERTIFICATE FAO – IPPC – ISPM15

(Not required but self-willed document)

With this certificate we confirm that we use the particle board technology to produce our moulded wood pallets.

Our production way :

- chipping by mechanical process wood in particles ;
- Drying to 3% moisture by 350° C ;
- Mixing with binding agent ;
- Pressing by high pressure ;
- Cooking by 190 ° C.

By this process plant pests cannot survey.

So therefore it is not necessary to realise any treatment to get an IPPC marking.

We confirm that these particle board pallets are processed by heat are considered as sufficiently and totally free from any plant pests according to the rule FAO- IPPC- ISPM15.

In Mende (France), June 07th, 2016.
